Shaw took its departure from mortality after a week's illness from pneumonia, at the advanced age of 76 years, which were occupied in usefulness and the doing of good to his fellow man.

William M. Shaw was born at Ben-

nington, Wyoming county, New York, Sept. 8, 1826. When a young man he heard the teachings of the Latter-day Saints and embraced the same. He suf-fered the hardships which the Church fered the hardships which the Church was compelled to undergo in the early days, but was always firm and steadfast. In the year 1847 he came to Utah with one of the first hand-cart companies, and settled in Weber county, where he has made his home ever since, with the exception of the years 1842-50 which he spent in California. He has done much for the upbuilding of Ogden city and the county in various ways, and his good works will live in the minds of his host of relatives and friends long after he is laid in the stlent tomb. He has raised a family of ten sons and daughters who are numbered among the best and most prominent citizens of Ogden; he also leaves a wife and numerous grand-children to survive him.

The funeral services will he held at the Ogden tabernacle Tuesday afternoon at 2 o'clock. The remains may be viewed at the family residence on date of funeral from 10 a. m. to 12:30 p. m. The funeral cortege will leave the residence for the tabernacle at 1:15 p. m.

TROUBLES OF THE CROSSES.

Mrs. Lillie J. Cross, was evidently very much dissatisfied with the judg-ment of Judge Howell Saturday evenment of Judge Howell Saturday even-ing, when he discharged her husband, Oscar Cross, holding that the charge of disturbing the peace had not been proven against him. Mrs. Cross left the court room not in the best of spirits and yesterday morning the word was brought to Cross that she was after his scalp and was carrying a pistol While he was walking along one of the streets, he met his wife and she commenced to pull the pistol from under her coat, but it caught in some way, Cross caught her by the arms and wrenched the revolver away from her, he then left her and took the weapon to the police station where he turned it over to the officers. He said he did not desire to swear out a complaint against his wife charging her with an assault with a deadly weapon, but thought the best thing for him to do was to leave the city before something serious should take place.

Farr and Emil Boyle were arrested by Officer Jensen Saturday evening on the charge of destroying private property. They were caught in the act of making a hole in the opera house door so they could see the show.

A warrant was issued yesterday for the arrest of W. P. Brown of West Weber on a charge of grand larceny. The complaint avers that Brown gave a certain horse and buggy to one B. M. Gates to secure a \$15 debt, and the rig was left at Nelson's livery sta-ble, where Brown afterward called, and representing to the night man that he was Gates, secured the outfit.

association was held Saturday in the court house, with President L. N. Hinckley in the chair.

The two Utah Lake commissioners representing Utah county, Judge John B. Milner and Bishop Lorenzo Argyle, presented the following report, which

"To the Land Owners Bordering Utah "Gentlemen: We, the Jordan Dam and Lake commissioners, beg leave to report as follows for the year 1902; "Jan. 31 the committee met in the of-fices of the state engineer in Salt Lake City, A. F. Doremus, O. P. Miller and L. Argyle, being present. A. F. Doremus was elected chairman, J. G. M. Barnes, of Kaysville, was elected as the fifth member of the commission, and G. C. Lambert was elected as secretary.

"Feb. 8, the committee met at Snail island and appointed L. Argyle a committee to measure the lake. The measures taken show the following results "Feb 8, water in the lake below com-promise point, 27 inches; March 1, 24 inches; March 18, 22¼ inches; April 1, 21¼ inches; April 15, May 1 and May 16, 21 inches; June 1, 21¼ inches; Sept. 25, 45 inches; Nov. 20, 47.76 inches.

pumps at the head of Jordan river all being present." Some consideration was given to the question of reservoiring the lake, and efforts of the Salt Lake Commercial club in that direction, and the sense of the meeting seemed to be favorable to any project that would benefit the people of the two counties, Salt Lake and Utah, but a determination was shown to guard the rights of Utah county peoof the two countles, Salt Lake ple and not to permit any change in the present status unless a better plan or one equally as good for Utah county land owners is presented. Judge Milner expressed the belief that the gentlemen in Salt Lake county who were taking an active interest in the lake question are actuated by a desire to act justly and for the mutual benefit of all concerned. In answer to a question the judge gave it as his estimate that the pumps at the head of the Jordan, when worked to their full capacity would low er the lake 1% inch per month with the water at compromise level, and two inches per month at low water level.

"Judge Milner and Bishop Argyle were re-elected lake commissioners for the ensuing year, and Andrew Knudsen and Roger Farrer were elected president and vice president respectively; E Hinckley was re-elected secretary.

BLACK HAWK VETERANS. committee appointed by the

Black Hawk Indian war veterans to consider ways and means for securing compensation for the services of the veterans of the Indian wars of 1865, '66 and '67, met Saturday in the county commissioners' room. It was decided to urge each post to have its members file affidavits on enlistment and service with the committee preparatory to the drafting of a bill to be presented to Congress asking for compensation. Senator Rawlins, who has taken an active interest in the matter, is of the opinion that such a bill will pass, and as the survivors of the Black Hawk war there are now about 15,000 of them scattered through Utah, and adjoining states and territories, Canada and Mexico-are many of them in their declining years, and some of them in need of financial aid it is to be hoped the nation will consider favorably their appeal for a just compensation for their time while they were protecting the settlers from the nation's wards. The committee feels quite encouraged and believes its la-bors will bring about the desired result. Those present were: George Harrison J. M. Westwood, John E. Booth, M. L Pratt, W. O. Creer, Charles Brewerton and D. W. Thomas, the only member absent being Wm. M. Bromley, who was unavoidably detained.

SUNDAY SERVICES.

At the meeting held in the tabernacle yesterday the following brethren re-ported the condition of the people in the wards designated: Counselor David John, Jr., First ward; Bishop L. L. Nelson, Second ward; Bishop Ernest D. Partridge, Fourth ward; Bishop Moroni Snow, Fifth ward, and Counselor Ralph Poulton, Sixth ward. Each of the speakers presented favorable reports showing in-creased desire and effort among the people to live in accordance with the principles of the Gospel, Apostle Reed Smoot expressed satisfaction with the reports presented and stated that they were similar to those generally heard throughout Zion. And from the mis-

sions abroad also came gratifying re-ports of the advancement of the work. He spoke of the prevailing tendency among the people to seek new homes and advised those who were so situated that they could provide comfortably for their families to remain in their present location. Those whose circumstances made it necessary for them to move to places where they could enjoy a greater degree of material pros-perity, should seek the advice of the authorities of the Church and secure the benefit of their counsel and experience. Elder Smoot bore a strong testi-mony to the divinity of the Latter-day work and related interesting testi-monies to the nobility of Joseph Smith, the Prophet, and his devine mission, which had been borne by men and wo-men associaed with the Prophet during his lifetime, at a meeting held in the Sixteenth ward in Salt Lake City on the occasion of the celebration of the Prophet's birthday anniversary, the

Some little excitement was created last night by a man being found in the main haliway of the court house, by James Miller, city marshal, who was unarmed, and while making an effort to get assistance the prowler made good his escape through a back door that had been locked on the inside only. Many conjectures have been conceived as to the man's business and manner of entrance, one that the boits had been withdrawn from a door to the upper balcony in the day time, and the marauder climbing the posts and entering as the door was found unfastened and ajar; no doubt the safe was the point of interest.

A NEW MEXICAN SHEEP RANCH

In the Corrumpaw, in Union county, N. M., there is a large model sheep ranch the conduct of which may prove of interest to those readers who do not know how such an establishment is run. This is Wight ranch, and the watered claims, comprising 3,000 acres, are so located as to give grazing privlieges over the whole country. There are 15,000 sheep, which range over a strip 10 miles wide and 30 miles long, according to Field and Farm. The entire flock right through requires one man to each 1,000 sheep, besides a foreman and a helper at the ranch. During the greater part of the year the ewes are run in bands of from 2,500 to 3,000, the wethers and yearling ewes in slighty larger bands. The lambing herd is usually less than 2,000, and the rams are of course run in a buck herd sand sheep during lambing, and ordina rily the results are from 80 to 90 per cent. Lambing generally commences May 5, and the greater part of lambs drop in the succeeding

Owing to the introduction of English mutton sires to increase the size of the sheep the last lambs will not shear this amount. ewe flock averages eight pounds wool to the head.

The average cost of running the sheep is 55 cents a head, leaving a nice margin of profit in the wool alone when sold at 124 cents, the contract price fo sold at 12½ cents, the contract price for the season. This profit of 45 to 50 cents a head does not include the sale of some 2,000 or 3,000 wethers at 12 or better in the fall. It requires 25 rams to the thousand ewes. After the breeding season is over they are taken by a Spanish neighbor, who herds them all the year except during the breeding season for \$25 a month which price does not include the grain furnished by the owner.
